

GWEN DARLING

Product Management Leader | B2B SaaS | P&L Owner | Fintech | Cybersecurity | AI Strategy
Greater Toronto Area, ON, CA | gwenyvere.tl.darling@gmail.com | linkedin.com/in/gwendarling

PROFESSIONAL SUMMARY

Product leader with full P&L accountability, building across cybersecurity, digital forensics, and financial services. I build in regulated, high-stakes environments where compliance is a first-class design constraint, not a retrofit.

Multi-tier architecture, pricing and packaging, services tooling, and partner ecosystems built with insurance carriers, MSPs, and resellers. AI is integrated into what I ship, bounded by what the analyst or investigator can stand behind, not by what the model can generate.

My product domains carry weight: finance, criminal investigations, and cyber incidents. That shapes how I build. Products should hold up when it matters.

CORE COMPETENCIES

Strategy: Product Strategy | P&L Ownership | North Star Metrics | Platform Integration | GTM Strategy

Growth: ARR & NRR | Pricing & Packaging | Channel Partnerships | Expansion Revenue

Leadership: Executive Alignment & QBR Reporting | Cross-functional Influence | Mentorship | ERG Founding

AI: AI Feature Productization | Internal AI Tooling | AI Strategy | LLM Research | Responsible AI

Delivery: Agile & Scrum | Continuous Discovery | Platform Transformation | Build vs. Buy | Ideation to Launch

Compliance Frameworks: SOC 2 | ISO 27001 | NIST CSF | HIPAA | GDPR | NCSC CE | AODA

PROFESSIONAL EXPERIENCE

Senior Product Manager, Incident Response • Arctic Wolf Networks • Jan 2024 – May 2026

Built Arctic Wolf's Incident Response (IR) into a scaled product line, replacing a legacy retainer with the Incident360 family designed from the ground up. Validated by IDC: "Why Didn't Anyone Think of This Before?" (July 2025). Arctic Wolf's fastest ARR ramp at product launch. Co-owned multi-million dollar P&L with VP of IR Services.

Revenue & Margin

- Launched Incident360 Retainers; delivered 200%+ of year-one revenue projections with 80%+ gross margins.
- Transformed IR from transactional to recurring revenue; drove 67%+ product CAGR.

Customer Lifecycle & Regulatory

- Designed and owned the end-to-end lifecycle for the Incident360 product family, including structured onboarding programs that accelerated time-to-value from initial activation through incident plan readiness.
- Built services enablement tooling and customer feedback mechanisms across the lifecycle; established utilization and entitlement tracking to surface renewal signals and measure post-onboarding activation health.
- Owned product compliance surface in SOC 2 Type II and ISO 27001 audit scope; embedded NIST SP 800-61/84/CSF 2.0 and HIPAA frameworks as customer-facing Incident360 tier capabilities; managed SEC cyber disclosure as a product requirement

AI & Platform Innovation

- Augmented the customer-facing product roadmap with AI capabilities projected to reduce customer workflow time by 90%; integrated tooling on the platform to combine frontline forensics data with Threat Intelligence to scale thought leadership.
- Drove internal AI Strategy adoption using Claude Code CLI and GitHub Copilot; built a competitive analysis agent, automated PRD and documentation workflows, and enabled PMs and designers across the org on VS Code and AI tooling to increase team velocity.

Executive & Strategic Direction

- Built the first customer focused Incident Response 3-5 year platform integration roadmap from scratch in partnership with CRO, CPO, SVPs of Sales and Customer Success.
- Owned sequencing, resource allocation, and build-vs-buy decisions across 6+ product teams; established governance frameworks that accelerate cross-functional execution.

Market & Portfolio

- Built MSP, reseller, and insurance carrier go-to-market; led global expansion including regulatory market fit.

- Aligned Sales, Operations, and Marketing across partner product tiers and leveled pricing, including strategic calibration of internal service delivery vs. external partner capacity.

Senior Product Manager | Chair, Women in Tech ERG • Magnet Forensics • Mar 2021 – Jan 2024

Owned growth, retention, and platform transformation across a five-product portfolio spanning Digital Forensics, Incident Response, and eDiscovery. Named inventor on a patent-pending algorithm powering Outrider, reducing forensic evidence discovery from weeks to minutes. (IPO May 2021; acquired by Thoma Bravo Apr 2023.)

Product Ownership & Innovation

- Led LLM research and responsible AI evaluation to define which forensic workflows were suitable for a repeatable product model and human-in-the-loop controls
- Owned B2B air-gapped and SaaS products including AI/ML capabilities, Forensic Cross-Case Analysis, mobile and desktop triage, and cloud data collection and processing.
- Drove full-cycle product development from ideation through launch via the Idea Lab innovation program, extending the product suite to new customer segments and expanding addressable market reach.
- Expanded API integrations to acquire cloud-sourced evidence, embedding Identity and Access Management controls to meet enterprise security governance.

Market & Commercial Strategy

- Led market evaluation, and data-informed problem space research to guide portfolio decisions.
- Partnered with UX to translate complex forensic workflows into investigator-grade product experiences.

Organizational Leadership

- Co-founded and chaired the Women in Technology ERG, building community and advocacy infrastructure

Product Manager, Digital Enrolment • Manulife Financial • Oct 2015 – Mar 2021

Owned the 1-3 year roadmap for Canada's Group Retirement Savings enrolment, coordinating 5 dispersed delivery teams from front-end through back-end data governance in a SAFe Agile Enterprise SaaS environment.

Product & Platform

- Launched Manulife's first fully digital, mobile-responsive Group Retirement Savings enrolment platform, transforming a paper-based client onboarding process into an easy self-serve experience.
- Designed and optimized workflows that simplify complex investment fund selection and plan enrolment, reducing friction at every stage of the onboarding journey.
- Led dual-vendor AODA-compliant investment fund site creation, reducing costs by \$2M+ annually.

Growth & Stakeholder Engagement

- Applied behavioural economics and persona-driven UX hypothesis testing to forecast and improve engagement, contributions, and investment across onboarding journeys; used data to validate prioritization decisions
- Aligned sales, operations, investment product, and marketing stakeholders; presented product vision and roadmap to client, advisor, consultant, and executive audiences.

EDUCATION

Honours Bachelor of Arts Candidate, Economics with Financial Management • Wilfrid Laurier University

CERTIFICATIONS

Certified Product Manager, PMI I-V (PMC) | Project Management Professional (PMP), PMI | Scrum Master

SELECTED RECOGNITION & SPEAKING

- Patent (Pending): CSAM Origin Detection Algorithm - computer systems and methods for locating first generation material in digital forensic investigations of data storage devices (P1280USP), Magnet Forensics
- IDC Recognition: Incident360 featured in IDC Market Note, "Why Didn't Anyone Think of This Before?" (July 2025)
- Innovation Award: Wolf on the Hill, Arctic Wolf Networks - awarded for creating a successful, innovative, and differentiated product in the Cybersecurity Market
- Speaker: Agile methodologies AMA panelist (200+ attendees); in-person presenter on Product-Engineering partnership (1,500+ attendees)
